

LPS C3800 SHRINK WRAPPING SYSTEM

Improves Presentation and Protects Your Products

What Does It Do?

The LPS C3800 Shrink Wrapping System is the smallest model in the range. Designed for small/medium sized products, this shrink machine provides much **VERSATILITY**. Combined with its **LOW ENERGY CONSUMPTION** and **EASE OF USE**, this manual sealing machine provides optimal sealing & shrinking control. There are 10 pre-set programs that can inputted and an extra wide reel support, which ensures there are **LESS PRODUCTION STOPS**.
