

## LPS C8500 SHRINK WRAPPING SYSTEM

### Improves presentation and protects your products

#### What Does It Do?

The ultra performing automatic LPS C8500 shrink wrap machine helps to protect products whilst still presenting them in clear, appealing way. The shrink film also protects the products from water damage and strengthens the overall protection of products.

#### Key Features:

- Steel bodywork: very sturdy
- Front control interface: intuitive programming, more space in the packaging section
- 3-digit display: good visibility and comprehensive information
- 10 Programs can be user-defined
- Innovative upper hood fastening: simplified maintenance and enhanced stability
- Sealing blades safety control: enhanced machine safety
- Support with larger reel diameter (to 300 mm)
- Packaging plate separated from the reel support: allows packaging even very small products with the same film reel
- Large packaging plate
- Innovative micro-perforator: continuous and optimal perforation
- Unit counter included
- Board access through a door: easier maintenance from the front
- Longer screened plate: chamber opening flap protection
- Boosted fan motor: superior shrinking performance
- Safety thermostat directly on heat chamber elements: greater safety for the machine
- Glue-less neoprene rubber support: easy to replace: no glue required.
