

LPS COMBI SHRINK WRAPPING SYSTEM

Improves the Security & Presentation of Your Products

What Does it Do?

The LPS Combi Shrink Wrapping System is an L Sealing machine and Shrink Tunnel in one. It **HELPS TO PROTECT PRODUCTS** whilst presenting them in a clear and appealing way.

The Combi is a Semi-Automatic modular and angular machine, presenting a Monobloc structure that distinguishes it from others. The retracting tunnel (equipped with a speed, height and temperature adjustment system) is **FULLY INTEGRATED** within the welding unit, making the structure of the machine **VERSATILE & COMPACT**. The motor driven transport belt, equipped with adjustable pitch and height, enables the products to run automatically through the tunnel.

Sealing time can be electronically set up and the motor driven patented sealing bar includes **TEFLON COATED BLADES** for **ADDITIONAL SAFETY**. Another safety feature is the continuous cycle cooling system and **MOTORISED WINDER** system, which are standard for this machine.

Options

- Stainless Steel Sealing Plate
- Blower
- Film Separator Sheet
- Stainless Steel 0.5mt Roller Conveyor
- 1mt Roller Conveyor
- Teflon Tunnel Belt

Key Features:

Cooling System at Closed Circuit and Patented Sealing Bar Safety System

Temperature Adjustable By Electronic Thermoregulator

Heat Insulated Structure

Teflon Coated Sealing Bars with Closed Circuit Cooling System

Patented Safety System

Suitable For Medium Sized Mass Production

Works With Polythene, PVC, Polyolefin & Polypropylene

Machine Specifications

| | |
|-----------------------------------|---------------------------------------------------------------------------------|
| Speed | Up to 900 Products Per Hour Speeds are Dependent upon Applications & operators. |
| Maximum Power | 6.3kw |
| Sealing Bar Dimensions | 540mm x 400mm |
| Maximum Product Dimensions | 500 x 380 x 200 |
| Power Supply | 200/208/220/380/415 (3 Phase) |
| Working Plate Height | 875mm |
| Max Film Roll Dimensions | 350mm x 600mm |
| Machine Dimensions | 2780mm x 730mm x1400mm |
| Machine Weight (Net) | 287kg |
| Tunnel Infeed Dimensions | 440mm x 240mm |

Why Choose An LPS System

Liberty Packaging Systems is one of the UK's leading suppliers of packaging equipment. As well as having a team of knowledgeable experts to offer advice and bespoke solutions to suit your packaging needs, we have a well-trained customer support team and highly skilled team of field engineers to support you after your purchase.

The reliable and efficient after-care support is provided to ensure you get the most out of your purchase. We also offer a comprehensive range of technical support and service packages. Our maintenance packages are an economical way to maximise performance and the longevity of your machine, resulting in peace of mind.
